

University Calendar 2018/19

Academic Regulations: Faculty of Engineering and Physical Sciences

School	Engineering
Final Award	PhD <i>With exit awards of:</i> Postgraduate Certificate (PGCert) Postgraduate Diploma (PGDip) Master of Science (MSc) Master of Philosophy (MPhil)
Programme(s)	Integrated PhD in Engineering with specific themes in: Sustainable Infrastructure Systems (SIS) Next Generation Computational Modelling (NGCM) Energy Storage and its Applications (ESA) Complex Systems Simulation
Last modified	May 2018

The Academic Regulations which are detailed in Section V: [Regulations for Research Degrees and Higher Doctorates](#), and Section IV: [General Information and Regulations](#) of the [University Calendar](#), apply to and regulate the programme(s) listed above.

On occasion, programmes can be exempted from one or more of the clauses in the Regulations; one or more of the clauses can be varied; and programmes can impose additional requirements.

- Exemptions are characterised by the omission of the relevant clause.
- Variations are characterised by the replacement of the clause with alternative wording.
- Additions are characterised by requirements in addition to those detailed in the Academic regulations.

The programmes listed have approval from the Academic Quality and Standards Committee for the **exemptions** and/or **variations** and/or **additions** to the regulations noted below.

Exemptions:

The clause(s) listed below describe where an exemption to the Regulations exists:

None apply

Variations:

The clause(s) listed below describe where a variation to the Regulations exists:

The taught component is assessed under the University regulations for [Postgraduate Master's Programmes](#) with additional requirements below.

Additional requirements:

The clause(s) listed below are in addition to the Academic Regulations:

In order to qualify for the awards listed, candidates must additionally:

1. *For students on the NGCM, SIS and ESA themes of the iPhD, an overall average mark of 55% or above is required in the taught component, together with a project mark of 55% or more, in order to continue in the research phase of that programme. Students who have passed their taught component but do not achieve an overall average mark of 55% or above may choose to take an MSc as an exit award, provided they have met the requirements of the*

University regulations for Postgraduate Master's programmes.

2. *Students on the Complex Systems Simulation iPhD progress from the taught component to the research component if they have passed all modules, obtained an average mark of 60% or more on all taught modules, achieved a project mark of 65% or more, and provided a fully developed research proposal which has been approved by the Programme Executive.*

These regulations should be read in conjunction with the programme specification.

Disclaimer:

As a research-led University, we undertake a continuous review of our programmes to ensure quality enhancement and to manage our resources. As a result, these regulations may be revised during a student's period of registration, however, any revision will be balanced against the requirement that the student should receive the educational service expected. Please read our [Disclaimer](#) to see why, when and how changes may be made to a student's programme.
